NOTES:

(1) DEPARTMENTS ARE GROUPED ACCORDING TO THE FOLLOWING REGIONS:

WESTERN CANADA, ONTARIO, QUEBEC, EASTERN CANADA.

(2) DEPARTMENT FACTOR DEFINITION

$$\text{Department factor} = \text{col}(E) = \frac{\text{col}(B)}{\text{col}(C)} = \frac{\# \text{Ph.D.} + \# \text{P.D. from department}}{\# \text{Ph.D.} + \# \text{P.D. from same region as department}}$$

(3) REGIONALISM FACTOR DEFINITION

$$\text{Regionalism factor} = \text{col}(F) = \frac{\text{col}(C)}{\text{col}(D)} = \frac{\# \text{Ph.D.} + \# \text{P.D. from same region as department}}{\# \text{Ph.D.} + \# \text{P.D. from all regions of Canada}}$$

(4) BOLDDED NUMBERS IN COLUMN (F) INDICATE THAT REGIONALISM FACTOR IS GREATER THAN OR EQUAL TO CRITICAL VALUE OF 30%. THIS VALUE MEANS THAT AT LEAST A THIRD OF ALL PH.D. AND POST-DOC EXPERIENCES IN A GIVEN FACULTY ARE ASSOCIATED WITH THAT DEPARTMENT OR THE REGION IN WHICH THAT DEPARTMENT EXISTS. ITALICIZED NUMBERS IN COLUMN (F) INDICATE DEPARTMENTS CLOSE TO THIS THRESHOLD LEVEL.
